

Get the Most from Microsoft Fabric and Maximize ROI with TimeXtender

Are you realizing the full value of Microsoft Fabric, or just scratching the surface?

With TimeXtender, you can supercharge your Fabric investment with faster delivery, smarter automation, and lower total cost of ownership.

Key Challenges

Manual development slows time-to-value

Tool overload adds complexity and cost

Limited visibility impacts governance

Underutilized compute wastes budget

Why TimeXtender?

Accelerate. Simplify. Optimize

Automate 80% of data work with a low-code, metadata-driven approach

Orchestrate Fabric with ease across lakes, warehouses, & models

Unify your stack with a single platform & replace fragmented tools

Boost agility and compliance through built-in governance

Results You Can Expect

With TimeXtender, small teams can deliver enterprise-grade solutions faster, smarter, and cost-effectively.

Faster project delivery (up to 3x)

Closer collaboration between data & business

Lower costs (up to 70% TCO reduction)

Stop struggling with complexity.

Let TimeXtender help you deliver more with Fabric, faster, and with greater ROI. Visit: www.timextender.com/demo
